

Xtrackers MSCI World UCITS ETF

The aim is for your investment to reflect the performance before fees and expenses of the MSCI Total Return Net World Index (Index) which is designed to reflect the performance of the shares of certain companies of various developed countries. The companies making up the Index are large and medium sized companies based on the combined value of a company's readily available shares as compared to other companies. A company's weighting in the Index depends on its relative size. As of 30 June 2013, the Index consists of the following 23 developed markets: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom, and the United States of America. The underlying constituents of the Index are listed in multiple currencies. The Index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax. The Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions. The Index is calculated in US Dollars on a daily basis. To achieve the aim, the Fund will attempt to replicate the Index, before fees and expenses, by buying all (or, on an exceptional basis, a substantial number of) the shares in the Index in the same proportion as the Index as determined by the Sub-Portfolio Manager of the Fund which is Deutsche Asset Management (UK) Limited. The Fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. The Fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the Fund. No dividends will be paid on your shares. You may redeem your shares on demand on a daily basis.
