

Xtrackers Stoxx Europe 600 UCITS ETF

The aim is for your investment to reflect the performance of the STOXX® Europe 600 Index (Index), while seeking to minimise foreign currency fluctuations at share class level. The Index is designed to reflect the performance of shares of 600 companies in Western Europe. The Index contains shares of large, medium and small companies, based on the combined value of a company's readily available shares compared to other companies. A company's weighting in the Index depends on its relative size but cannot exceed 20% of the Index at each quarterly review. The Index composition is reviewed at least quarterly. The Index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax. To achieve the aim, the Fund will attempt to replicate the Index by i) buying a substantial number of the shares in the Index in the same proportion as the Index as determined by the Sub-Portfolio Manager of the Fund which is Deutsche Asset Management (UK) Limited and ii) entering into financial contracts (derivatives) which attempt to reduce the effect of exchange rate fluctuations between the currency of the index components and the currency of your shares. The Fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. The Fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the Fund. No dividends will be paid on your shares. You may redeem your shares on demand on a daily basis.

Key Information

Name	Xtrackers Stoxx Europe 600 UCITS ETF
Provider	Xtrackers
Trading Currency	EUR
Fund Currency	EUR
Operating MIC	XETR
Index Name	STOXX® 600 Index, TRN, EUR
